## **CERTIFICATE OF COMPLIANCE**

### **REMOVAL OF HAZARDOUS SUBSTANCES (RoHS) FOR PVC, CPVC, MATERIALS**

Spears® Manufacturing Company certifies that its injection-molded and fabricated products are manufactured in the U.S.A. using the highest quality unplasticized polyvinyl chloride (UPVC) and chlorinated polyvinyl chloride (UCPVC) compounds which are RoHS Compliant and are listed for potable water service by the National Sanitation Foundation (NSF®).

Unplasticized polyvinyl chloride (UPVC) material is a compound having a cell classification of 12454, and unplasticized chlorinated polyvinyl chloride (UCPVC) material is a compound having a cell classification of 23447 conforming to ASTM Standard D1784.

These materials meet the requirements RoHS as they are free of lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB) and polybrominated diphenyl ethers (PBDE)
